SUMMARY

Full-stack and mobile software engineer with 4+ years of experience. Built production React Native, Flutter, Next.js, and Node.js/Express applications across fintech, social media, admin, and dating platforms. Delivered both frontend and backend work — REST APIs, auth systems, real-time feeds, payment integrations, and KYC flows. Experienced working as sole engineer and in small teams.

EXPERIENCE

Software Engineer

Naelix Technologies — Lagos, Nigeria | 2025 – Present

Givtro – React Native Fintech App

Role: Sole engineer (frontend + backend)

- Designed and built backend REST APIs with Node.js, Express, and MongoDB; deployed on Render.
- Implemented JWT authentication with token refresh, session expiry handling, and a transaction state machine.
- Integrated Reloadly VTU (airtime, data, bills) and gift card buy/sell flows with wallet debit, sandbox testing, and automatic refunds on failure.
- Built KYC verification flows using N-Verify for NIN, Passport, and PVC checks.
- Implemented biometric auth via expo-local-authentication with PIN fallback and TransactionConfirmModal for payment approvals.
- Added Cloudinary profile picture upload with instant local preview and optimistic UI updates.
- Managed Expo EAS build pipeline and deployment.

Intarakt – React Native Social App

Role: 1 of 2 engineers

- Built real-time home feed using Convex queries with PostCard, QuotedPostCard, and RepostCard components.
- Implemented skeleton loading states across feed and profile screens, replacing all activity spinners.
- Developed FullPostModal thread viewer, full-screen UserProfileModal, and PeopleToTrack horizontal discovery strip.
- Built ownership-aware CardMenu (share, edit, delete for own posts; share, view profile, track for others).
- Replaced all native alerts with a custom AlertProvider/useAlert system app-wide.
- Stack: Expo 54, NativeWind v4, Convex, Clerk, react-native-gesture-handler.

Qnode – React Native Admin Panel for QikTalk

Role: Sole engineer

- Built the full admin panel from scratch in React Native as the only engineer on the project.
- Implemented System Settings screen, RTK Query auth flow (login → OTP → passkey), gradient border buttons via expo-linear-gradient.
- Set up EAS build pipeline and a custom alert system (CustomAlert/useAlert).

QikTalk – Flutter Short-Video Social App (TikTok-style)

Role: Team member

- Implemented granular privacy settings (Last Seen, Profile Photo, About, Groups, Status) with 'My Contacts Except...' exclusion logic.
- Extended PrivacySettingsState with excluded ID sets across all five privacy surfaces.
- Diagnosed and resolved Gradle build failure on Windows blocking the team.

Finger – Flutter Dating App

Role: Team member

- Contributed to UI and feature development on a Flutter-based dating platform.
- Worked across profile, discovery, and matching screens as part of a cross-functional mobile team.

Frontend Development Instructor

Freelance — Lagos, Nigeria | Jan 2025 – Feb 2025

- Delivered a 2-month frontend development course covering HTML, CSS, JavaScript, and React.
- Ran code reviews, hands-on exercises, and project assessments for a cohort of students.

Freelance Software Engineer

Self-Employed — Remote | 2021 – Present

- Built Opapa Studios marketing landing page (Next.js) with scroll-based Framer Motion animations, bento grid, and SSR hydration guards.
- Maintained personal portfolio (softlifex.vercel.app) with GSAP/ScrollTrigger animations, canvas preloader, SEO infrastructure, and a full Givtro case study page.

SELECTED PROJECTS

Givtro – Fintech app with VTU payments, gift cards, biometric auth, KYC, and full Node.js/Express/MongoDB backend.

Tech: React Native, Expo, Node.js, Express, MongoDB, Cloudinary, Reloadly

Intarakt – Real-time social platform with threaded posts, quote-posts, reposts, and profile discovery.

Tech: React Native, Expo, Convex, Clerk, NativeWind v4

Qnode – Admin panel for QikTalk built solo — full auth flow, system settings, and EAS pipeline.

Tech: React Native, RTK Query, expo-linear-gradient, EAS

QikTalk – TikTok-style short-video social app. Contributed privacy settings and resolved critical build issues.

Tech: Flutter, Dart

Finger – Dating app. Contributed profile and discovery UI as part of a mobile team.

Tech: Flutter, Dart

softlifex.vercel.app – Personal portfolio with cinematic scroll animations, canvas preloader, and full project case studies.

Tech: Next.js, GSAP, ScrollTrigger, TypeScript

TECHNICAL SKILLS

Mobile: React Native (Expo Router, EAS), Flutter, NativeWind v4

Frontend: Next.js, React, TypeScript, GSAP, Framer Motion, Tailwind CSS

Backend: Node.js, Express, MongoDB, REST API design, JWT auth, token refresh, session management

Real-time: Convex, WebSockets

Auth & KYC: Clerk, N-Verify (NIN/Passport/PVC), expo-local-authentication, biometric + PIN flows

Payments: Reloadly VTU, gift card APIs, wallet/transaction state machines

DevOps/Tools: EAS Build, Vercel, Render, GitHub, Git

State Mgmt: RTK Query, Zustand, React Query, Convex reactive queries

EDUCATION

B.Sc. Computer Science

University of Nigeria, Nsukka — Nigeria | In Progress

- Coursework: Data Structures, Algorithms, Operating Systems, Database Systems, Software Engineering, Linear Programming, Graph Theory, UML Design.
